

About us

As **Logistics** is increasingly important for the economy, so is developing Luxembourg **as intercontinental hub** due to its location, open and dynamic **development**.

Since 2009 the association Cluster for Logistics Asbl ("C4L") organizes or participates in almost 30 events per year to represent its over 100 members or federate them around **value logistics** and efficient global supply chain in the heart of Europe.

Our mission

The Cluster for Logistics "C4L"

- **serves** its members as neutral information, communication and coordination platform.
- **represents** the interests of its members by expressing common positions in relation with the development of Luxembourg as logistics hub.
- **supports innovation and developing** logistics skills and competitiveness through members
- **increases the recognition** of supply chain logistics promoting the Luxembourg hub is the «voice of logistics» in Luxembourg.

Since 2009

LUXEMBOURG
LET'S MAKE IT HAPPEN

Join C4L as member

Membership in the C4L helps you...

- Understand sector development and exchange critical information
- Regularly obtain latest news and information
- Participate in a strong network with service providers and shippers
- Obtain advice and support for projects
- Share expertise and knowledge with peers
- Promote your activities in Luxembourg and abroad

C4L members count many international and local logistics service providers, industry representatives and service providers interested in developing performance logistics.

Creating value is the Key

Details about the membership:
www.clusterforlogistics.lu/join-us

Whats in for you

- Participate in local and international events with networking to meet and advise shippers (i.e. attend Transport & Logistics exhibition in Munich, or Fruit Logistica in Berlin)
- Increase your recognition across Luxembourg
- Participate in specific project workgroups to improve the competitiveness of the sector
- Develop and obtain recommendations for authorities and institutions with the association
- Represent the logistics sector internationally
- Attend sustainable logistics, Lean and Green or innovation events

**BUILD YOUR PROFESSIONAL NETWORK
IN LUXEMBOURG**

Supply chain conferences & exhibitions

The C4L supports the continuous development of the Logistics sector and next generation of specialists. Offering a network to the digital natives, as well as start-ups working in supply chain.

The Cluster encourages young professionals as well as start-ups to use its network.

Developed in partnership with Dutch connect in a European network, the first companies achieved the **Lean and Green STAR program** in 2018. Purpose is to develop green sustainable logistics by understanding the **CO₂ footprint** and developing action plans to decrease the carbondioxide emissions in logistics by 20% in less than 5 years. By 2019 a dozen companies certified for the Lean and Green award and 3 achieved the Lean and Green STAR.

How to obtain awards

- Prepare an action plan to reduce CO₂ emissions by min. 20% within 5 years
- Obtain training, field support and a template
- Measure and monitor your CO₂ emissions
- Get LEAN and GREEN Label and gain recognition
- Network with other Lean and Green companies

To reduce costs, win competitive advantage and find new solutions and solution providers
